Currently, there is a criminal investigation underway in England into the harm, injury and damage caused by the Covid-19 vaccines and the actions of the UK government in relation to the Covid-19 crisis. A significant percentage of the UK population have shown concern and some people have now reported this matter as a serious crime to various Police forces around the country. In particular, I am now aware of the following reports;

- 1) Crime Ref No. 6029679/21 issued 20th Dec 2021 by the MET Police Hammersmith CID
- 2) Crime Ref No. #13220052372 issued Sat 29th Jan 2022 by West Yorkshire Police, Leeds
- 3) Crime Ref No. #13220029693 Huddersfield
- 4) Crime Ref No. #2200016852 Cardiff
- 5) Crime Ref No. #1220-020222 Greater Manchester
- 6) Crime / Incident No. PS-20220120-1333 at Govan, Glasgow

On 6th Dec 2021, the International Criminal Court (ICC) issued Case number: TP-CR-473/21 following submission of substantial written testimonies from many leading experts together with accusations against the UK government and governments around the world. Refer www.docdroid.com/WUjv6iw/icc-complaint-7-1-pdf

On 17th Dec 2021, An English law firm, PJH Law, issued a substantial letter of concern to the Medicines & Healthcare products Regulatory Agency (MHRA). Refer www.pjhlaw.co.uk/wp-content/uploads/2021/12/letterMHRA.pdf

On 5th Feb 2022, Lawyers and experts from around the world started leading evidence and exposing the scandal surrounding Covid-19. Refer grand-jury.net

On 9th Feb 2022, PUBLIC HEALTH SCOTLAND, a Scottish Government organisation, issued their COVID-19 & Winter Statistical Report. This report shows that 88% of Covid-19 related deaths are vaccinated people indicating that vaccines may be causing significant harm. Refer www.publichealthscotland.scot/media/11619/22-02-09-covid19-winter_publication_report.pdf

Furthermore, millions of people all around the world are now showing serious concern with huge unprecedented protests such as the Truckers Freedom Convoy in Ottawa, Canada etc.

So, in my humble opinion, it would be naive to believe that the First Minister Nicola Sturgeon, Scottish government ministers and relevant officials are unaware of this situation and the accusations of serious crimes which have now arisen. However, it appears to me that the FM is ignoring these facts and has failed to act appropriately under the circumstances and failed to implement a cessation of the vaccination program etc. The FM Nicola Sturgeon, Scottish Government ministers and relevant officials are therefore giving me the appearance of being complicit in the crimes reported to the Police and the International Criminal Court.

Under these circumstances, the introduction of new powers in the form of the proposed Coronavirus (Recovery and Reform) (Scotland) Bill, that may apply to any future public health emergency, is unacceptable and not relevant in the circumstances.

The proposed bill must be cancelled immediately prior to the completion and outcome of all criminal investigations.
