

Are Covid-19 vaccines safe?

What are the world's best experts saying?

Do you really believe that every one of these highly qualified experts, each with many years' experience in their respective fields, is a 'conspiracy theorist' spreading 'misinformation'?

Dr Tess Lawrie (MBBCh, PhD) - Director, Evidence-based Medicine Consultancy Ltd

'It is now apparent that these products in the bloodstream are toxic to humans. An immediate halt to the vaccination programme is required whilst a full and independent safety analysis is undertaken to investigate the full extent of the harms, which the UK Yellow Card data suggest include thromboembolism, multisystem inflammatory disease, immune suppression, autoimmunity and anaphylaxis, as well as Antibody Dependent Enhancement (ADE)... 'The MHRA now has more than enough evidence... to declare the COVID-19 vaccines unsafe for use in humans.'

Dr Michael Yeadon - former head of respiratory research at Pfizer

'certain batches of vaccines are extremely toxic.. it's not the same stuff in each vial and that means criminal acts are being committed.. The vaccines do not prevent you catching it... they don't prevent transmission.. but they are unfortunately very harmful. They are certainly toxic... You must not vaccinate your children'

Dr Sucharit Bhakdi - former Professor and Head of the Institute for Medical Microbiology and Hygiene, with expertise in vaccinations

'The pandemic is a fake... based on a PCR test that was dangerously inaccurate giving false positive data...' 'They are killing people with this vaccination... For God's sake inform yourself before you let yourself and your beloved ones be vaccinated... don't get a 3rd, 4th or 5th because you are going to contribute to the decimation of the world's population.' > Search the [HealthImpactNews](https://HealthImpactNews.com) channel on rumble.com for 'They are Killing People with COVID Vaccines'

Dr Robert Malone - Scientist and Physician; inventor of mRNA & DNA vaccines

'They are not working to prevent infection, replication, and spread to others, and they are not completely safe. ... The full nature of the risks remains unknown. In contrast, the natural immunity which healthy immune systems develop after infection and recovery from COVID-19 is long lasting, broad, and highly protective from disease and death caused by this virus.'

Sir Christopher Chope MP – Covid-19 Vaccine Damage Bill, 10th Sept 2021

‘Essentially what the Yellow Card scheme shows... that there have been 1632* reports of deaths having taken place shortly after vaccination... There’s a lot more damage being done to our citizens as a result of Covid-19 vaccinations than in any other vaccination programme in history.’ ‘Our hospitals have a large number of in-patients who are only there because those patients took the vaccine and it’s causing a lot of angst for consultants across the country. We know that there is causation between vaccinations and damage caused by those vaccines yet the government in a lot of its literature seems to be denying it.’

***now over 2053 reports of deaths**

Prof Luc Montagnier - Nobel laureate in medicine for discovering AIDS

‘These vaccines are poisons. They are not real vaccines. The mRNA allows its message to be transcribed throughout the body, uncontrollably. No one can say for each of us where these messages will go.’

> Search ‘**Luc Montagnier Luxembourg**’ at rumble.com

Dr Marcus De Brun GP - Microbiologist

‘Speaking as a qualified Microbiologist, I would NOT administer an mRNA vaccine to a healthy animal, never mind a healthy human being.’ ‘I would not administer the novel gene therapy to my children under any circumstances.’

> See tinyurl.com/tnfcfv2

Dr Roger Hodkinson - Pathologist and expert in virology

‘Believe nothing you are being told. It’s all been a pack of lies from start to finish – pure propaganda. This is nothing more than a bad seasonal flu, with a slightly increased risk for older people with comorbidities. This is a pandemic of fear.’

> Search ‘**Roger Hodkinson**’ at rumble.com

Dr Kary Mullis - Nobel prize winner and inventor of the PCR test

‘PCR [testing] is just a process that allows you to make a whole lot of something out of something. It doesn’t tell you that you are sick, or that the thing that you ended up with was going to hurt you or anything like that.’

> Search ‘**Kary Mullis**’ at rumble.com
