

WHEN WILL POLICE SCOTLAND STOP THE KILLING AND INJURY?

Since the "emergency use" experimental vaccinations started, there has been a significant increase in death rate, and a large increase in health issues.

"Police Scotland's purpose is to improve safety and wellbeing of people, places and communities in Scotland, focusing on keeping people safe in line with our values of integrity, fairness and respect"

www.scotland.police.uk

The first and foremost duty of Police Scotland is the protection of life. It is therefore incumbent on Police Scotland to take immediate action to halt further experimental vaccinations until their own forensic investigations have been completed.

There is a live Grand Jury court investigation in The Court of Public Opinion grand-jury.net: and International Criminal Court case TP-CR-473/21 was issued in The Hague on 6 Dec 2021.

Incident 20220120-1333 was reported at Govan Police Station on 20 Jan 2022. This incident number covers the same crime being committed in all vaccination centres, and it must immediately be raised to a live criminal investigation with all experimental vaccination vials retained by the police for analysis and evidence.
